## Work Experience

**Inventory Control Specialist**, Locally – Cairo **– (Sep 2024 — Present)**
- Managed and tracked inventory across multiple showroom branches featuring various local fashion brands using **Odoo ERP system**.
- Processed and logged incoming Purchase Orders, ensuring accurate stock entry and system updates.
- Conducted regular inventory audits to reconcile system data with physical stock and maintain accuracy.
- Handled onboarding of new products on Odoo, including categorization, pricing, and product data entry.
- Maintained and organized product listings on the brand's mobile app with real-time stock levels.
- Collaborated with warehouse teams and suppliers to solve inventory discrepancies.
- Supported operational efficiency through back-end system management.
- Contributed to stock distribution across branches for optimal allocation.
- Identified stock gaps and coordinated transfers.
- Analyzed sales data to identify best sellers and optimize branch allocation.
- Worked with Operations and Sales to reduce stagnant inventory and increase turnover.

**WordPress Designer**, NG Business – Cairo **– (Aug 2023 — Sep 2023)**
- Utilized built-in WordPress customization options and themes to create functional layouts.

**WordPress Designer**, The Way Educational Service – Cairo **– (May 2025 — Jul 2025)**
- Worked on website customization, plugin integration, and front-end improvements.

## Internships

**Data Analysis**, CIB – Cairo **– (Aug 2024 — Oct 2024)**
- Learned techniques in data cleaning, transformation, and visualization.
- Created dashboards and reports.
- Contributed to the design and implementation of a customer loyalty program.

**AI / ML / Deep Learning Summer Intern**, ITI – Cairo **– (Jun 2024 — Jun 2024)**
- Built and trained deep learning models for image classification.
- Applied TensorFlow and Scikit-learn.

**Summer AI Training Program**, British University in Egypt (BUE) | Medix **– (Aug 2025)**
- Completed a summer certified training program in Artificial Intelligence, supported by the Rotary Club at BUE.
- Gained practical knowledge in:
  - AI Basics
  - Deep Learning Basics
  - Agents Fundamentals
  - Effective Prompting Techniques

**AI Hackathon 2nd Edition**, Belton – AUC **– (Mar 2024 — Apr 2024)**
- Participated in an AI-focused hackathon addressing order-delivery optimization across multiple warehouses.
- Built a machine learning pipeline for warehouse-to-customer assignment using distance, stock availability, and delivery time.
- Developed an algorithm to reduce delivery cost and improve fulfillment speed.
- Collaborated with a multi-disciplinary team to prototype and present the final AI solution.

## Projects

**Chicken Invaders (Remake)** | *C++, Structured Programming* **– (2023)**
Spearheaded development of a remake of Chicken Invaders.
Collaborated with team to deliver a fully functional game.

**PacMan Game (Remake)** | *C++, Data Structure* **– (2023)**
Implemented optimized data structures and BFS for ghost movement.

**Car Rental System [Rentelli]** | *Java, OOP* **– (2024)**
Designed and implemented a full OOP-based car rental system.

## Skills

**Technical Skills:** Machine Learning (ML), Artificial Intelligence (AI), Algorithms, Data Structures, SQL, OOP, Data Analysis, Data Visualization, Power BI, Relational Data Modeling, Arduino, UI Designing, Figma, WordPress, Odoo

**Non-Technical Skills:** Organization, Marketing, Project Management, Problem Solving

## Volunteering Experience

**Data Analysis Member**, Potentia – Cairo **– (Oct 2024 — May 2025)**
- Collected and analyzed data for events and engagement.
- Developed dashboards with Power BI.
- Used Excel for cleaning and analysis.
- Wrote basic Python scripts for automation.

**IOT Member**, Robotech – Cairo **– (Oct 2022 — May 2023)**
- Hands-on experience with embedded systems.
- Worked on 3 IoT projects.
- Discussed a project with 4th year students.

**Event Organizer Member**, ACM – Cairo **– (Oct 2022 — May 2023)**
- Organized training sessions.
